

# 276/277

# 276/277 Health Care Claim Status Request / Response Batch

This companion document is for informational purposes only to describe certain aspects and expectations regarding the transaction and is not a complete guide. The details contained in this document are supplemental and should be used in conjunction with the ASC X12 Standards for Electronic Data Interchange Technical Report Type 3 (TR3) as published by the Washington Publishing Company.

Section 1 – Health Care Claim Status Request / Response: Basic Instructions

Section 2 – Health Care Claim Status Request / Response: Enveloping

Section 3 – Health Care Claim Status Request / Response: Charts for Situational Rules

NOTE: Availity has been designated to serve as our Electronic Data Interchange (EDI) partner for all electronic data and transactions.

#### **Get Started With Availity**

The Availity Quick Start Guide will assist you with any EDI connection questions.

If you're a provider and wish to use a Clearinghouse or Billing company, please work with them to ensure connectivity.

#### **Need Assistance?**

For questions about signing up, contact Availity Client Services 1-800-AVAILITY (1-800-282-4548) or visit <a href="https://www.availity.com">www.availity.com</a>

## **Section 1 - Basic Instructions**

#### 1 Council for Affordable Quality Health Care (CAQH)

CAQH is a non-profit alliance of health plans and trade associations focused on achievable, concrete initiatives designed to strengthen the nation's health care system and simplify health care administration. The CAQH CORE Phase I & II operating rules have been adopted by the Department of Health and Human Services as necessary business rules and guidelines for the electronic exchange of information. These operating rules are incorporated into this companion document.

#### 2 Business Purpose

The purpose of generating a 276 Status Request is to obtain the current status of the claim within the adjudication process. This transaction includes information that is necessary for Anthem to identify the specific claim in question. The following primary identifiers must be supplied:

- A. Patient's First Name, in its entirety (10 characters): Loop 2100D, NM104 (if subscriber is the patient); Loop 2100E, NM104 (if dependent is the patient)
- B. Billing Provider NPI Number submitted on the original claim: Loop 2100C, NM109
- C. Member Identification Number: Loop 2100D, NM109; Loop 2100E, NM109 (if dependent has a unique identifier)
- D. Claim Submitter Trace Number: Loop 2200D, TRN02; Loop 2200E, TRN02
- E. Claim Number: Loop 2200D, REF02 (if subscriber is the patient); Loop 2200E, REF02 (if dependent is the patient)
- F. Date(s) of Service: Loop 2200D, DTP03 (if subscriber is the patient); Loop 2200E, DTP03 (if dependent is the patient)
- G. Claim Submitted Charges: Loop 2200D, AMT02 (if subscriber is the patient); Loop 2200E, AMT02 (if dependent is the patient)

#### 3 Delimiters

Anthem only accepts the following delimiters as defined by the ANSI standards of the basic character set:

- Data Element Separator, Asterisk (\*)
- Repetition Separator (ISA11), Caret (^)
- Sub-Element Separator, Colon (:)
- Segment Terminator, Tilde (~)

NOTE! Since the above values are the only delimiters supported, the use of any other values will yield a file level rejection. Using values from the extended character set is not permitted without a mutual written agreement between Anthem and trading partner

#### 4 Uppercase Letters

Anthem requests that all data be entered in UPPERCASE letters only.

#### 5 HIPAA Compliant Codes

When entering codes in the 276 claim status request, carefully follow the 276/277 TR3. Use HIPAA Compliant codes from current versions of the sources listed in Appendix A: External Code Sources. Anthem will accept all HIPAA standard codes, however, acceptance of these codes of modifiers will not alter covered benefits or current payment policies, guidelines or processes.

#### 6 Communication Protocol Specifications (not applicable to those transitioned to Availity)

HTTPS connectivity is available through the internet.

Web Address. Below is the HTTPS URL address where a 276 file may be uploaded using the HTTPS EDI portal for a 277 response.

URL: <a href="https://www.edibatch.com/anthemedi/login.jsp">https://www.edibatch.com/anthemedi/login.jsp</a>

#### 7 System Hours of Availability

As a CORE-certified health plan, Anthem follows the guidelines as set forth under Section 1 of the CAQH CORE System Availability Rule. Regularly scheduled system downtime/maintenance will be reserved for Sundays and the following holidays:

- New Year's Day (01/01/CCYY)
- Memorial Day (Last Monday in May)
- Independence Day (07/04/CCYY)
- Labor Day (First Monday in September)
- Thanksgiving Day (Fourth Thursday in November)
- Christmas Day (12/25/CCYY)

#### 8 Receiver ID

For Blue-branded business, trading partners submit the receiver ID values (ISA08 and GS03) associated to the provider of service. The Application Receiver ID (GS03) is submitted as DEN when requesting eligibility for dental policies.

Receiver ID		
Batch		
State	ISA08	GS03
CA	BCCA	BCCA
Dental	BCCA	DEN

#### 9 Acknowledgements and/or Reports

Submitting a 276 transaction, you will receive the following responses:

- Functional acknowledgement reports that includes TA1 (X12) & TA1 (864) when the ISA-IEA envelope cannot be processed and/or 999 when submitted 276 does not pass Level 2 HIPAA validation.
- 277 is returned in all other cases to indicate the member status.

#### 10 Similar Claims Found

When the search criteria submitted (Member ID, Member First and Last Name, Dates of Service, Provider NPI and Total Charges) does not result in a match on the Claim Number (REF '1K'), but does find a series of other claims, a response will be generated with the similar claims. Loop 2200D Subscriber Level or Loop 2200E Dependent Level will be returned with the claim information that match the other search criteria.

#### 11 Adjusted and Voided Claims

A 277 Response will include the final image of an adjusted or voided claim but not the original claim.

#### 12 Claims Without Dollar Amounts

A 277 Response on a member-payable claim, rejected claim, or approved claim without dollar amounts will contain a zero dollar amount in the data element, STC05 Claim Payment Amount (Loops 2200D, 2200E) and SVC03 Line Item Paid Amount (Loops 2220D, 2220E). Also, in Loops 2220D & 2220E, the following STC data elements will not be included:

- STC08 Check Issue or EFT Effective Date
- STC09 Check or EFT Trace Number

## 13 Standardized Claims Responses

For the following situations, a standardized STC response will be generated. Note that additional claim status codes may provide future specificity in STC10 and STC11.

Standardized Claim Responses				
*NOTE: These responses are standard for all lines of business. They are not the only codes returned for all situations, other claim status codes are returned.				
The state of the s	STC		STC	
Description	Response	Description	Response	
Not Found		Membership, Coverage		
Claim Not Found	A4^35	Claim rejected due to no membership— finalized status	F2^33	
Subscriber Not Found	E0^33	Claim rejected due to coverage termination—finalized status	F2^27 F2^108^IL	
Patient Not Found (generic) E0^97		Claim rejected due to coverage termination—pending status	P1^27 P1^108^IL	
Medical Records		COB Information		
Claim Rejected for Requested Medical Records—finalized status	F2^317	Claim rejected for COB Information but a request has not been issued at the time a 276 was received—finalized status	F2^52 F2^57 F2^286	
Claim Pending for Requested Medical Records—pending status	P3^317	Claim rejected for Requested COB Information—finalized status	F2^52 F2^57 F2^286	
Claim Rejected for Medical Records but no request has been issued at the time a 276 was received—finalized status	F2^317	Claim pending for Requested COB Information—pending status	P3^52 P3^57 P3^286	
Claim Pending for Medical Records but no request has been issued at the time a 276 was received—pending status	P1^317	Claim pending for COB Information but a request has not been issued at the time a 276 was received—pending status	P1^52 P1^57 P1^286	

# Section 2 - Enveloping

EDI envelopes control and track communications between you and Anthem. One envelope may contain many transaction sets grouped into the following:

- Interchange Control Header (ISA)
- Functional Group Header (GS)
- Functional Group Trailer (GE)
- Interchange Control Trailer (IEA)

Anthem has designated Availity to operate and serve as Anthem's EDI Gateway (entry point) as a no-cost option to our Trading Partners. Availity has specific requirements that must be adhered to and should be reviewed in order to ensure transactions are accepted, processed and ultimately delivered to Anthem.

For more information on submitting transactions and the required ISA and GS envelope values, review the following topics in the <u>Availity EDI Guide</u>.

- · Uploading and downloading EDI files
- Control Segments/Envelopes
- FTP Client Confirmation
- Acknowledgements and Reports

# Section 3 - Charts for Situational Rules

Listed below are loops, segments, and data elements required for processing by Anthem per the situational rules in the 276/277 TR3.

	276 Health Care Claim Status Request
