

275

275 Additional Information to Support a Health Care Claim or Encounter—Batch

This companion document is for informational purposes only to describe certain aspects and expectations regarding the transaction and is not a complete guide. The details contained in this document are supplemental and should be used in conjunction with the ASC X12 Standards for Electronic Data Interchange Technical Report Type 3 (TR3) as published by the Washington Publishing Company.

Section 1 – 275 Health Care Claim Attachment: Basic Instructions

Section 2 – 275 Health Care Claim Attachment: Charts for Situational Rules

Get Started With Availity

Use the <u>Availity Welcome Application</u> to begin the process of connecting to the Availity EDI Gateway for your Anthem EDI transmissions. **Review page 5 in this document for key EDI requirements.**

Also, the Availity Quick Start Guide will assist you with any EDI connection questions.

If you're a provider and wish to use a Clearinghouse or Billing company, please work with them to ensure connectivity.

Need Assistance?

For questions about signing up, contact Availity Client Services 1-800-AVAILITY (1-800-282-4548) or visit www.availity.com

Section 1 - Basic Instructions

1 Business Events Supported by the 275 Transaction Set

- 837 Claim submitted with a PWK segment— Additional documentation submitted before the payer makes a formal request.
- 837 Claim submitted without a PWK segment Attachment to Support a Healthcare Claim Documentation submitted in response to a specific request from the payer.
- Accepted documents, including PDF, TIFF, and JPEG

Anthem Blue Cross is the trade name of Blue Cross of California. Anthem Blue Cross and Anthem Blue Cross Life Page 1 of 10 and Health Insurance Company are independent licensees of the Blue Cross Association. Anthem is a registered Release 1 trademark of Anthem Insurance Companies, Inc.

2 Business Rules & Limitations

- Attachments must be received within 7 calendar days of receipt of the corresponding health care claim.
- Each attachment is limited to a maximum size of 100MB.

2.1 Document Matching – Unsolicited Attachments

- The unique Attachment Control Number is assigned by the provider organization on the 837 claim PWK06 and it must match the 275 attachments (Loop 2000A TRN02). **Do not use the same attachment control number, it must be unique for each submission**
 - Payer requests for supporting documentation will include a claim number to use as the Attachment Control Number in the 275 attachments (Loop 2000A TRN02).

2.2 Matching Criteria

The complete list of criteria to match an attachment to a claim includes:

- Patient Name
- Member ID
- Billing NPI
- Date of Service
- Claim total
- Attachment Control Number

2.3 Accepted Attachment Types

The following unstructured document types are accepted as attachments:

- JPEG Image
- PDF
- TIF Image

2.4 MIME Packaging/Base64 Encoding

All attachment data must be single part MIME packaged, as defined in IEFT RFC 2045. See https://tools.ietf.org/html/rfc2045 for complete specification.

MIME encoding solves several issues:

Anthem Blue Cross is the trade name of Blue Cross of California. Anthem Blue Cross and Anthem Blue Cross Life Page 2 of 10 and Health Insurance Company are independent licensees of the Blue Cross Association. Anthem is a registered Release 1 trademark of Anthem Insurance Companies, Inc.

- 1. It reduces the number of characters in the attachment, preventing conflicts with the X12 element separators.
- 2. It identifies the content type, allowing validation by the receiver.
- 3. It identifies the filename, allowing for a per-file acknowledgement back to the sender.

A MIME encoded attachment format:

```
MIME-Version: 1.0
Content-Type: image/tiff
Content-Transfer-Encoding: base64
Content-Disposition: attachment; filename="patientxray.tif" < Base64
encoded data>
```

Note: The MIME header uses the colon (:). This character is often used as the EDI sub-element separator. When including a MIME package, a different EDI sub-element separator must be selected.

When submitting multiple attached files, each file must be submitted in a different Loop 2000A. Multipart MIME encoded packages are NOT supported.

3 Provider Identification

Billing provider information used to match the claim to supporting documentation must be included in Loops 1000C and 1100C:

- Providers with NPIs must submit their billing NPI in Loop 1000C NM109
- NPI exempt providers must submit their provider number in the REF Provider Secondary Identification segment with a REF01=G2

4 Patient Identification (Loop 1000D)

If the patient is not the subscriber and does not have their own member ID, the member ID from the 837 claim (Loop 2000C NM109) must be populated in the 275 attachment (Loop 1000D NM109).

5 External Resources

For additional information related to transactions and standards in this companion document:

- X12 (http://x12.org) 275 attachment and 837 claim transactions
- WEDI white paper (https://www.wedi.org/workgroups/data-exchange/attachments login required) implementation issues and uses of the 275 attachment
- LOINC site/HIPAA tab (https://loinc.org/?s=HIPAA+TAB) LOINC codes
- MIME (https://tools.ietf.org/html/rfc2045) MIME packaging of an attachment file
- Base64 (https://tools.ietf.org/html/rfc4648) standard encoding format

Anthem Blue Cross is the trade name of Blue Cross of California. Anthem Blue Cross and Anthem Blue Cross Life Page 3 of 10 and Health Insurance Company are independent licensees of the Blue Cross Association. Anthem is a registered Release 1 trademark of Anthem Insurance Companies, Inc.

6 Logical Observation Identifiers Names and Codes (LOINC)

The HIPAA Administrative Simplification provision mandates the adoption of standards for electronic claims attachments. A claims attachment includes the clinical and administrative information often necessary to adjudicate claims such as those for ambulance, rehabilitation, or emergency room services. Regenstrief has worked closely with the HL7 Attachments Work Group (AWG) to support the use of LOINC codes in the electronic exchanges of attachments between payers and providers.

LOINC is maintained at https://loinc.org.

A payer request specific subset of LOINC is defined as the "HIPAA Tab". It lists generic document types that payers may use to solicit specific types of documentation

7 **Communication Options**

All connectivity is provided through Availity, www.availity.com.

8 **Acknowledgements and/or Reports**

These reports are formatted based on the settings the trading partner chooses at Availity. Review the <u>Availity EDI Guide</u> for more information on report formatting options.

- ☐ TA1 when the ISA-IEA envelope cannot be processed. Returned for 275 files containing envelope errors in the ISA and GS segments.
- ☐ 999 when submitted 275 does not pass Level 1 validation Returned if the X12 syntax or any other aspect of the 275 is not X12 compliant, the Immediate Batch Report/999 will also report the Level 1 errors in AK segments and indicate that the entire transaction set has been rejected
- 824 when submitted 275 does not pass Level 2 validation o Returned for HIPAA compliance (including balancing), code set or business errors

Sample TA1:

Customer ID: 16455 File Status: REJECTED Date Received: 2019-10-02 Time Received: 17.51.20.820 Filename: 201910021350 File Control Number: 655596392 Interchange Time: 1215 Interchange Status: The Transmitted Interchange Control Structure 190731 Header and Trailer are Rejected Because of Errors. Sample Interchange Note: Invalid Interchange Content (e.g., Invalid GS Segment) 999:

Anthem Blue Cross is the trade name of Blue Cross of California. Anthem Blue Cross and Anthem Blue Cross Life Page 4 of 10 and Health Insurance Company are independent licensees of the Blue Cross Association. Anthem is a registered Release 1 trademark of Anthem Insurance Companies, Inc.
