

Clinical Quality in Practice

CME webinar: Transitions of care

In this session, distinguished physician researchers who are also practicing clinicians speak to best practices supporting safe patient transitions between inpatient care settings and home.

Our speakers share actionable strategies for primary care providers to improve outpatient population health management, including effective ways to use Admission, Discharge and Transfer (ADT) notifications.

“Transitions of Care: what we can do to improve patient safety as patients leave the hospital”

Attendees receive one CME credit upon answering required questions at the conclusion of this webinar.
