

Recruiting and Engaging Medical Neighbors Handout

Care Delivery Transformation Virtual Working Session

Objective: Develop plan to build medical neighborhood through implementation of care compacts. Patient-Centered Specialty Care (PCSC) Program requires 2 or more care compacts to receive credit on the PCSC scorecard.

Step 1: Define your medical neighborhood	
Step 2: Define a high functioning medical neighbor	
Step 3: How/why are care compacts meaningful for your medical neighborhood?	
Step 4: List practices in your area that meet the listed qualities or matching capabilities	
Step 5: Develop outreach plan	
Step 6: List anticipated challenges	
Step 7: Strategize ways to overcome the anticipated engage challenges	
Step 8: Begin outreach and document outcomes to review with your Community Collaboration Manager
